DETAILED ACTION

Allowable Subject Matter

1. The following is a statement of reasons for the indication of allowable subject matter: Claims 1 and 11 are allowable over the art of record because the prior art does not teach a second core made of second magnetic material, the second core being operable to move within an area between the portion of the conductive wire and the first core, and in combination with the remaining claimed limitations.
2. Claims 12 and 21 are allowable over the art of record because the prior art does not teach wherein the second core is operable to move in the recess of the first core, and in combination with the remaining claimed limitations.
3. Claims 22 and 30 are allowable over the art of record because the prior art does not teach wherein the coil has a first region and a second region where the conductive wire is wound at a density larger than a density of the conductive wire at the first region, and in combination with the remaining claimed limitations.
